# Health Care Programs

## Managing Health Care Delivery

**WHO SHOULD ATTEND**

Clinical and nonclinical leaders with more than 10 years of experience in large established health care delivery organizations, including:

- Physician chiefs
- Subspecialty chiefs
- Nursing executives
- Administrative executives

**KEY BENEFITS**

- Create flexible strategies for ensuring quality care
- Introduce new efficiencies and improve coordination of services
- Respond to new market forces, payment methods, and consumer expectations
- Build an organizational structure that fosters innovation
- Analyze and improve your organization’s financial health

**WHAT YOU WILL LEARN**

In five modules spread out over seven months, build skills that will help you innovate and enable your organization to provide high-quality, compassionate care in a cost-effective manner. Learn how you can successfully lead a more competitive health care organization in an era of increasing complexity.

## Strategy For Health Care Delivery

**WHO SHOULD ATTEND**

Senior-level managers from health care delivery organizations, including top executives, senior clinical leaders, and financial executives

- Executives from insurance companies, other payor organizations, or health care suppliers
- Senior executives from large organizations that provide health care to employees or customers, collaborate with health care institutions, or offer on-site health services or retail health care
- Leaders from pharmaceutical companies, medical device companies, or other health care supply companies

**KEY BENEFITS**

- Focus your organization’s strategy on value
- Align payment with value
- Lead strategic and organizational change while overcoming common obstacles
- Drive more efficient practices and introduce strategies for improving care
- Expand through new facilities, affiliations, and partnerships

**WHAT YOU WILL LEARN**

Embrace innovative new strategies and organizational models that are evolving the way health care is delivered, measured, and reimbursed. Lay the foundation for a value-based approach that benefits patients, your organization, and the health care ecosystem.
